A key goal for us is to build a strong presence within our industry, so that visitors to the website whether potential clients or potential suppliers can clearly understand who we are and what we offer. 1. Business Information

Business Overview

Imperial Essence Trading is a Dubai-based wholesale and distribution company specializing in luxury perfumery, premium cosmetics, skincare, and niche fragrances, alongside fashion, textiles, travel sets, accessories, and jewelry. We work with leading international retail groups and long-standing commercial partners across wholesale and duty free channels in the Middle East, Europe, Africa, and the United States.

Company History

Imperial Essence Trading draws on over 40 years of family legacy in the travel retail and luxury perfumes and cosmetics industry, built on extensive wholesale and retail experience across multiple international markets.

Our Founders

Imperial Essence Trading LLC was born from the shared vision of two partners whose paths in the duty free, wholesale, and luxury retail industry were destined to meet.

Siddharth Thakker, born and raised in Dubai, grew up immersed in the family's wholesale and distribution business, where he gained early exposure to supplier relationships, market instinct, business strategy, and the discipline needed to move goods reliably across borders.

Sakina Idmouhine, originally from Spain, built her career within the perfumery and luxury cosmetics industry over more than 15 years, mastering the nuances of brand relationships and the expectations of international retailers and distributors connecting with people across the industry through trust and knowledge, while traveling worldwide to open new markets and pursue business opportunities.

When their paths crossed, they recognized a shared passion for the industry and a common belief in doing business the right way: with reliability, transparency, and long-term relationships. Together, they founded Imperial Essence Trading LLC.

Beyond being business partners, Sakina and Siddharth work together like family, sharing the same drive, values, and ambition to keep growing. That spirit of partnership and continuous growth defines Imperial Essence Trading today, and continues to motivate the team as it builds stronger relationships with brands, retailers, and distributors around the world.

2. Branding

Logo

(Attached as a separate high-resolution file as well; a vector/EPS or AI version can be provided if needed for print or large-format use.)

Brand Colors

Metallic gold on a white/cream background, matching the logo approximately #A97C00 to #BC9900 (gold), paired with white/off-white and black or dark grey for body text.

Brand Guidelines

No formal brand guidelines document currently available the logo above and its gold/white palette should be used as the reference.

Suggested Visual Style Background Imagery

For the homepage (and potentially other key sections), we would like a background photo featuring a softly blurred view of the Dubai skyline with the Burj Khalifa visible in the background reinforcing our Dubai headquarters and premium, international positioning. The blur effect should keep the focus on foreground content (text, logo, CTA) while the skyline adds atmosphere and context.

(We can source or approve a licensed stock photo for this, or the design team can suggest one happy to review options.)
